

Use a little **SCATTER™** and big odors disappear! Scientifically formulated for heavy-duty applications. Effectively counteracts malodors at landfill sites, in sewage treatment plants and lift stations, manure piles, in garbage and refuse trucks and dumpsters, containers and compactors, incinerators, other refuse disposal operations, restaurant dumpsters, hospitals. For use in absorption and counteracting of odors from emesis, human and animal fecal and urine waste.

USE INSTRUCTIONS

WASTE CONTAINERS/DUMPSTERS: Scatter™ 2 or 3 scoops per cubic yard of container capacity. Repeat after each service cycle. Keep lid closed during storage.

GARBAGE COLLECTION TRUCKS: Scatter™ freely onto beds and hoppers of garbage and refuse trucks.

TRASH CANS, CONTAINERS AND COMPACTORS: Apply 2-3 tablespoons when empty and as needed.

INDOORS: Evenly distribute Scatter™ at rate of one or two ounces per 100 sq. ft. Sweep up and dispose of properly.

OUTDOORS: Spread around and under dumpsters and apply onto liquid run-off puddles.

LIQUID SPILLS: Scatter™ absorbs and contains odorous liquid spills for easy pick-up and disposal. Use rubber gloves while applying.

ANIMAL CONTAINMENT (KENNELS & FARMS): Liberally apply on and around excrement and sweep up into plastic trash bag. Keep away from animal feeding and contact feeding areas. Dispose of properly.

FOOD PROCESSING WASTE: From restaurants, hotels, hospitals, nursing homes, taverns, etc.

TO CONTROL ORGANIC MALODORS: From decomposing fish, seafood, poultry, meat and grease by-products.

PEST CONTROL: (Carrion) odors caused by animal carcass decomposition. Whenever possible apply Scatter™ directly to carcasses and adjacent surfaces. If odor source is inaccessible, apply Scatter™ as close to source as possible.

EMESIS REMOVAL (VOMITUS): Liberally apply on and around excrement and sweep up into plastic trash bag and dispose of properly.
